A bowler must bowl at least 2/3 games of the regular season to be eligible for 'Bowler of the Year' the award. After all point totals are calculated, the point total will be divided by the number of games bowled by that bowler to get a point value per game of bowling. The highest number on that point value will determine the winner of the "Bowler of the Year" award. One award for "Male" and one award for "Female".

Example: 84 points divided by 78 games bowled equals 1.077, that number will be compared to other bowlers in the running for the award.
